**APPENDIX 4A: 2010 AND 2011 ROCK SAMPLE LOCATIONS AND
DESCRIPTIONS**

Appendix 4a: 2010 and 2011 Rock Sample Locations and Descriptions

| Sample | Year Collect | WPT | General Location | Easting N83Z19 | Northing N83Z19 | Source | Sample Type | Max CPS | Litho Prelim | Description | Notes | Date Collect |
|--------|--------------|------------|-------------------|----------------|-----------------|--------------------|-------------|---------|------------------|---|--|--------------|
| 67751 | 2010 | 67751 | Southeast | 539703 | 6309631 | Boulder | Grab | 900 | cc-Carb | v.f.g. pale ol, sul (c.g., euh, cubic, br-r, qtz vns(c.g., 3cm wide, py, lim)), mag (2%, diss), mafics (bio) | Fe-ox perv, 600-900 CPS | 19-Aug-10 |
| 67752 | 2010 | OCS10-033 | East of Star | 539322 | 6309271 | Outcrop | Grab | -1 | Scht | f.g. to m.g., med gy, withd - dk gy to dk rusty br, wk foln, bio-cc, mag (diss), k-spar? (lt pk, throughout), ~6 mm felsic vn, vn of cc-carb with br-r vnlets | - | 19-Aug-10 |
| 67753 | 2010 | 67753 | East of Star | 539444 | 6309199 | Outcrop | Grab | -1 | Glim | dk gy, withd - rusty br, Glim (v.f.g., mafic), mag (diss), dol (1-2 mm vns) | V. small OC on ridge (<1 m ²) | 19-Aug-10 |
| 67754 | 2010 | 67754 | East of Star | 539647 | 6308911 | Boulder | Grab | -1 | - | lt b-gy, withd - med gy, fol, calcareous, micaceous (c.g.), mag (f.g., diss, perv), sul (few, diss) | - | 19-Aug-10 |
| 67755 | 2010 | 67755 | East of Star | 539465 | 6308590 | Boulder | Grab | -1 | - | v.f.g., dk gy-y, withd - rusty br, bio-mag ibnd with calcitic felsic mins (<1 mm bnds, fol?) | - | 19-Aug-10 |
| 67756 | 2010 | 67756 | East of Star | 539359 | 6308712 | Boulder | Grab | -1 | Gn | v.f.g. to m.g., wkly fol, siliceous, cc (diss), fsp-bio-musc, sul (lt y-gold, few, diss) | Granitic to gabbroic in nature | 20-Aug-10 |
| 67757 | 2010 | 67757 | East of Star | 539417 | 6308749 | Boulder | Grab | -1 | cc-Carb | v.f.g., lt gy, withd - med gy to rusty, mag (v.c.g. up to 1 cm, v.f.g., diss) | - | 19-Aug-10 |
| 67758 | 2010 | 67758 | East of Star | 539226 | 6308957 | Boulder | Grab | 380 | dol-Carb | f.gr., lt gy to med gy, withd - dk gy, bio (c.gr.), mag (perv) | Slumped? (possible boulders), 1.5 m x 4 m | 19-Aug-10 |
| 67759 | 2010 | 67759 | East of Star | 539128 | 6308995 | Boulder | Grab | -1 | meta-Sed | v.f.g., lt to med gy, layered (dol, cc, mag), mag (euhedral), sul (1-3 mm), cc-mag (perv) | Gal may be present | 19-Aug-10 |
| 67760 | 2010 | 67760 | South Mag Blowout | 539013 | 6308848 | Outcrop | Grab | -1 | meta-Volc | v.f.g., b-gy, withd - lt-med gy, mass, cc? | Slight HCl rxn | 19-Aug-10 |
| 67761 | 2010 | 67761 | South Mag Blowout | 538911 | 6308931 | Boulder | Grab | 3000 | dol-Carb | f.g. to m.g., withd - rusty br to peachy pk (Fe-O), minor healed fracs with mafic patches and vnlets (~1 mm), bio, mag (diss, f.g.) | 3000 CPS on boulder | 19-Aug-10 |
| 67762 | 2010 | 67762 | Southeast | 537830 | 6310584 | Boulder | Grab | -1 | dol-Carb | m.g., br-gy, withd - br | - | 22-Aug-10 |
| 67763 | 2010 | Ocps | MC Exposure | 541266 | 6311961 | Outcrop | Grab | -1 | mica Scht | mica scht with boudinage of amph?, other lithos as well | Frost heave | 22-Aug-10 |
| 67764 | 2010 | 402Cps | Star Trench | 537601 | 6310304 | Boulder | Chip | 402 | dol-Carb | c.g., withd - br, suc, pych? (abnt, blk) | - | 22-Aug-10 |
| 67765 | 2010 | Old Trench | Southeast | 537855 | 6310783 | Unknown | Grab | 8000 | Carb | withd - w, sugary, fl?, pych? (abnt, blk) | Old Trench | 22-Aug-10 |
| 67766 | 2010 | End | MC Exposure | 541266 | 6311961 | Outcrop | Grab | -1 | mica Scht | mica scht?, fol, fsp inclusions (abnt) | Same description as 67763 | 22-Aug-10 |
| 67767 | 2010 | Oc Ps2 | MC Exposure | 541258 | 6312016 | Outcrop | Chip | -1 | Glim / mica Scht | amph? (fine needles, abnt, blk) | - | 22-Aug-10 |
| 83301 | 2010 | APR10-009 | Ashram | 536427 | 6312026 | Outcrop | Chip | -1 | Carb (S3) / Glim | m.g., med gy, xtn, Carb with minor Glim vns, fl-py | Beside OC with 38713 | 25-Jun-10 |
| 83302 | 2010 | SS10-001 | North Glim | 535742 | 6313957 | Boulder | Grab | -1 | Gr | m.g., pk, xtn, felsic (~90%), kspar-qtz-amt | Erratic | 28-Jun-10 |
| 83303 | 2010 | SS10-002 | North Glim | 535681 | 6313879 | Outcrop | Grab | 400 | Glim | f.g. to c.g., med b-gy-blk, xtn, mass-brc, bio, py, late stage carb dykes | Glim occurrence | 28-Jun-10 |
| 83304 | 2010 | - | North Glim | 535681 | 6313879 | Outcrop | Grab | -1 | Carb (S4)? | f.g. to m.g., pk-gy, xtn | Glim occurrence | 28-Jun-10 |
| 83305 | 2010 | SS10-003 | North Glim | 535787 | 6313918 | Outcrop | Grab | -1 | Glim | f.g., med gy, xtn, mica, py | Glim occurrence | 28-Jun-10 |
| 83306 | 2010 | SS10-006 | North Glim | 535709 | 6313907 | Outcrop | Grab | -1 | Carb | m.g., pk-gy, Glim (vnlets), fl, phenos?, etc? | Frost heave | 28-Jun-10 |
| 83307 | 2010 | - | Hodge-Podge | 544699 | 6309553 | Boulder | Grab | -1 | Scht | f.g., gr-gy-b, withd - br-gy, greasy look, finely fol, very hard, musc-bio, chl?, amt?, qtz, with plag? (c.g., lt, soft), few vugs filled with large xtls | - | 30-Jun-10 |
| 83308 | 2010 | - | Hodge-Podge | 545020 | 6309839 | Outcrop | Comp | -1 | Scht | b-gy-gr, withd - greasy blk-br-gr, ibd f.g. and c.g. layers, fol, msc (radiating-bladed, fibrous, v. gr, rare), bio, plag (large xtls, not twinned, med-lt gy), chl? (v.f.g.) | V. large OC (slumped?) | 30-Jun-10 |
| 83309 | 2010 | - | Hodge-Podge | 545020 | 6309855 | Boulder | Grab | -1 | Scht | v.f.g., gr-gy (5GY-6/1), withd - rusty gr-gy with greasy sheen, br along fol, fol, large blk radiating xtls (tremolite?), msc-bio | Sample is typical of boulders within area | 30-Jun-10 |
| 83310 | 2010 | - | Hodge-Podge | 545565 | 6309865 | Boulder | Grab | -1 | Scht | med lt gy (N6), withd - dull gy to blk, foliated, msc-bio-chl?, minor trem? (large blk xtls, fibrous, radiating), amph? | Boulder is 1 m high x 3.5 m wide | 30-Jun-10 |
| 83311 | 2010 | - | Hodge-Podge | 545427 | 6309291 | Outcrop | Grab | -1 | Scht | f.g., b-gy, withd - cr-br to rusty br-r, fine fol, xtn, msc-bio-chl, cc (perv, bnds), plag? (w, withd - lt pk, finely bnd, xtn, chalky), sul? (minor, pbl, >0.5 mm, r-br) | OC is 65 cm high x 2.3 m wide, looks like there are vesicles and very soft blk slivers (amph?) on surface (withg pattern?) | 30-Jun-10 |
| 83312 | 2010 | - | Hodge-Podge | 545323 | 6309247 | Outcrop | Grab | -1 | Scht | f.g., med b-gy, withd - dull gr-blk, fine fol within large beds, rusty br layers separating fol beds, vesicles or vugs? on withd surf, msc-bio (c.g.)-plag?-chl? | OC on top of ridge, 0.7 m high x 1.8 m wide | 30-Jun-10 |
| 83313 | 2010 | Apr10-011 | Ashram | 536120 | 6312053 | Outcrop | Grab | 2600 | Carb (S4) | f.g., lt ol-gy, withd - rusty br-og, blk, fl (dk p, streaks & blebs common, 3 mm wide max) | 3 OC along parallel ridge (APR10-11, 12, 13), abnt boulders in area with similar CPS readings, 1600 CPS (HS), abnt frost heave | 1-Jul-10 |
| 83314 | 2010 | Apr10-013 | Ashram | 536060 | 6312120 | Outcrop | Grab | 1480 | Carb (S3) | c.g., y-gy (5Y 7/2), withd - rusty br to dk br-blk, xtn, mass, fl (dk p, blebs & vnlets up to 3 mm) | - | 1-Jul-10 |
| 83315 | 2010 | - | Ashram | 536197 | 6312116 | Boulder | Grab | 3500 | Carb (S4) | f.g., med gy (N5), withd - v. dk br to rusty br, xtn, fl (blebs & stringers up to 5 mm) | Along waterline | 1-Jul-10 |
| 83316 | 2010 | Ss Line1 | Ashram | 536176 | 6312147 | Boulder | Grab | 2000 | Carb (S4) | f.g., med gy (N5), withd - v. dk rusty br, fl (dk p, blebs & stringers up to 2 mm), py (diss), fairly xtn | Along waterline | 1-Jul-10 |
| 83317 | 2010 | - | Ashram | 536212 | 6312106 | Boulder | Grab | 3300 | Carb (S4)? | f.g., med gy (N5), withd - dk rusty br, xtn, fl (dk p, blebs & stringers up to 4 mm), py (diss, rare xtl up to 2 mm) | Abnt boulders in area | 1-Jul-10 |
| 83318 | 2010 | 83318 | North Glim | 535678 | 6313879 | Outcrop | Grab | 400 | Glim | f.g., med b-gy (5B 5/1), withd - dull blk with rusty og-br patches, mod fol, xtn, bio-py-riebeckite | Glim Occurrence, OC (slightly slumped?) is Carb (S4) with xcut brc Glim, small qtz vns & clsts (avg 2.5 cm) throughout | 1-Jul-10 |
| 83319 | 2010 | 83319 | Sareille | 544580 | 6307025 | Outcrop | Grab | -1 | Scht | m.g., gr-gy, withd - dk gy, fol, msc-bio, qtz? (translucent w, hard) | - | 2-Jul-10 |
| 83320 | 2010 | 83320 | Sareille | 545146 | 6306369 | Outcrop | Grab | 90 | Scht | f.g., gr-gy, withd - rusty, xtn, bio-K-spar vnlets, soft | OC ~1 m x 1 m | 2-Jul-10 |
| 83321 | 2010 | 83321 | Sareille | 545112 | 6306111 | Outcrop | Grab | 160 | Scht | f.g., med gy (N5), bio-musc-qtz (v.c.g.), xtn, fol and defm | - | 2-Jul-10 |
| 83322 | 2010 | 83322 | Sareille | 544994 | 6305646 | Boulder | Grab | -1 | Scht | med gy, xtn, mass, fol, bio-chl-musc, fl? (dk p), soft | Ang boulder | 2-Jul-10 |
| 83323 | 2010 | 83323 | Beckling | 539757 | 6312178 | Boulder | Grab | 180 | Scht | f.g. to m.g., gy-blk (N2), withd - blk, fol, minor flow bnds, bio-amph (fibrous) | Ang boulder | 10-Jul-10 |
| 83324 | 2010 | 83324 | Enterprise | 539775 | 6311971 | Outcrop | Grab | 300 | mica Scht | f.g., med b-gy, withd - lt rusty br-blk, v.f. fol, fissile, greasy, calcitic, cc (vnlets, 1-2 mm), mica-chl?, abnt small fracs | Strong frost heave throughout, 20-25 m x 3 m high | 10-Jul-10 |
| 83325 | 2010 | 83325 | MC Exposure | 540993 | 6311957 | Boulder | Grab | 4900 | Carb / Glim | f.g., blk, brc, fl (blebs), sul (py), extremely hard | Glim brc by Carb? | 10-Jul-10 |
| 83326 | 2010 | 83326 | Northwest | 535804 | 6312140 | Subcrop (TR08-002) | Grab | -1 | Glim / Carb (S1) | Glim: gy-blk (N2), bio (f.g., ang clasts, 3-4 cm long), Carb: vnlets (3 mm wide), m.g. to c.g., y-gy (5Y 7/2), non-mag | Glim brc by Carb | 30-Jun-10 |

Appendix 4a: (continued)

| Sample | Year Collect | WPT | General Location | Easting N83Z19 | Northing N83Z19 | Source | Sample Type | Max CPS | Litho Prelim | Description | Notes | Date Collect |
|--------|--------------|--------|------------------|----------------|-----------------|--------------------|-------------|---------|--------------------------|---|---|--------------|
| 83327 | 2010 | 83327 | Northwest | 535804 | 6312133 | Subcrop (TR08-002) | Chip | -1 | Glim | m.g., br-blk (5YR 2/1), wthd - rusty br, mod foln, cc vnlets (few, 2 mm wide), non-mag | - | 30-Jun-10 |
| 83328 | 2010 | 83328 | Northwest | 535808 | 6312132 | Subcrop (TR08-002) | Comp | -1 | Glim | m.g., br-blk, mass, wk fol, non-mag, cc vnlets (few, 5 mm) | 83326, 83327, 83328 all have same Glim trend (340') | 30-Jun-10 |
| 83329 | 2010 | 83329 | East Valcourt | 536043 | 6311095 | Outcrop | Grab | 1000 | dol-Carb | f.g., med b-gy, dol, fl (blebs), cc (vnlets, 0.4 cm wide), amph (along cc vnlets) | OC is 8 m x 0.7 m wide | 3-Jul-10 |
| 83330 | 2010 | 83330 | East Valcourt | 536100 | 6311180 | Outcrop | Chip | -1 | Carb (S1)? | m.g., sandy colour, wthd - rusty, suc, few other mins | - | 3-Jul-10 |
| 83331 | 2010 | 83331 | East Valcourt | 536098 | 6311194 | Outcrop | Chip | -1 | dol-Carb | m.g., w, xtl | - | 3-Jul-10 |

| 92310 | 2011 | 92310 | Beckling | 539049 | 6313047 | Boulder | Grab | 2700 | dol-Carb? | f.g., lt br-gy, withd - og-br, suc, mottled, py (minor), cloudy dk patches, fl (v. minor) | 1 cm withd crust, ang boulder is 20 x 10 x 8 cm | 6-Aug-11 |
| 92311 | 2011 | 92311 | Beckling | 539049 | 6313053 | Boulder | Grab | 1900 | dol-Carb? | f.g., lt br to med br-gy, suc to xtnl, mottled to mass, py (abnt, diss, v.f.g., 10%), fl (minor, m.g., patches) | sub rnd boulder is 25 x 15 x 5 cm | 6-Aug-11 |
| 92312 | 2011 | 92312 | Beckling | 539065 | 6313045 | Boulder | Grab | 4100 | Glim / dol-Carb | f.g., blk to lt gy-gr, suc, mod fol, bio (post tectonic, phenos), py (common, f.g., diss) | sub ang boulder is 50 x 60 x 40 cm | 6-Aug-11 |
| 92313 | 2011 | Oc92313 | Beckling | 538870 | 6312982 | Boulder | Chip | 550 | dol-Carb | f.g., med gy, withd og-br, suc, mass, ukn min (bnds, v.f.g., dk), py (tr) | - | 6-Aug-11 |
| 92314 | 2011 | 92314 | Miranna | 537288 | 6313074 | Boulder | Grab | 5200 | dol-Carb | tan, f.g., suc, bimodal size distribution of dol grains, py (minor), pych (1-2%, diss, dk br) | cluster of 4 large buried boulders, area is 1 x 1 x 0.4 m | 7-Aug-11 |
| 92315 | 2011 | 92315 | Miranna | 537345 | 6313011 | Boulder | Grab | -1 | dol-Carb | lt gy, f.g., patches & streaks (pale og-tan), py (minor, f.g.), fl (diss) | 2 sub rnd boulders 50 x 40 x 40 cm | 7-Aug-11 |
| 92316 | 2011 | 92316 | Miranna | 537474 | 6312833 | Boulder | Grab | 2300 | dol-Carb | f.g., lt gy, mod bnded, py (1%), fl (tr) | half buried boulder is 40 x 40 x 20 cm | 7-Aug-11 |
| 92317 | 2011 | 92317 | Miranna | 537840 | 6312179 | Boulder | Grab | 1850 | dol-Carb | f.g., tan, suc, py (<1%), fl (minor, vague bnds), phl (tr) | ang boulder is 40 x 70 x 15 cm | 7-Aug-11 |
| 92318 | 2011 | 92318 | Miranna | 538015 | 6312136 | Boulder | Grab | 1350 | dol-Carb | f.g., xtnl, phl (abnt, f.g.), small Glim clsts | rnd boulder is 1 x 1 x 0.3 m, surface shows abnt frags (elongate) | 7-Aug-11 |
| 92319 | 2011 | 92319 | Miranna | 537735 | 6312263 | Boulder | Chip | -1 | dol-Carb | f.g., tan, suc, xtnl, bimodal, py (tr to minor, patches), fl (tr, patches), pych (<1%) | sub ang boulder is 1 x 0.5 x 2 m | 7-Aug-11 |
| 92320 | 2011 | 92320 | Miranna | 537550 | 6312357 | Boulder | Grab | -1 | dol-Carb | f.g., w to gy, fl (wk diss, bnds, streaks), py (minor, 1%), fl (scattered), pych (phenos, f.g.) | sub rnd boulder is 50 x 40 x 40 cm | 7-Aug-11 |
| 92321 | 2011 | 92321 | Miranna | 537534 | 6312393 | Boulder | Grab | 2800 | dol-Carb | f.g., lt gy, suc, fl (streaks, 1%), py (tr) | rnd boulder is 20 x 10 x 10 cm | 7-Aug-11 |
| 92322 | 2011 | 92322 | Miranna | 537372 | 6312874 | Boulder | Grab | 1500 | dol-Carb | f.g., lt cr, withd surface displays bnds, fl rich bnds (cm scale, discontinuous), py (minor, patches, often assoc. with fl), pych (tr) | sub rnd boulder is 50 x 40 x 40 cm | 7-Aug-11 |
| 92323 | 2011 | 92323 | Miranna | 537351 | 6312960 | Boulder | Grab | 8200 | dol-Carb | f.g., lt gy, fl (patches), phenos (minor, dk) | sub ang buried boulder is 30 x 30 x ?cm | 7-Aug-11 |
| 92324 | 2011 | 92324 | Triple-D | 535775 | 6313628 | Boulder | Grab | 4500 | dol-Carb | m.g., cr-tan, fl (abnt, streaks), phl (minor), py, pych, phl (films, zones) | and boulder is 40 x 40 x 20 cm | 8-Aug-11 |
| 92325 | 2011 | 92325 | Triple-D | 535757 | 6313594 | Boulder | Grab | 3200 | dol-Carb? | f.g.-m.g., med ol-gr, patchy, fl (thin zones, f.g.), py (minor, f.g.), ukn min (r-br, fibrous) | several broken boulders in area 80 x 80 x 30 cm | 8-Aug-11 |
| 92351 | 2011 | 92351 | Triple-D | 535756 | 6313582 | Boulder | Grab | 3350 | dol-Carb? | f.g., lt ol-gr, brc, fl (abnt, frac fill, diss), py (minor, f.g.), similar to sample 92325 | sub rnd boulder is 1 x 0.6 x 0.3 cm | 8-Aug-11 |
| 92352 | 2011 | 92352 | Triple-D | 535720 | 6313491 | Boulder | Grab | 4500 | dol-Carb? | f.g., med gr-gy, mass, homo, py (minor, f.g.), fl (diss, v.f.g.) | ang boulder is 70 x 40 x 30 cm | 8-Aug-11 |
| 92353 | 2011 | 92353 | Triple-D | 535703 | 6313355 | Outcrop | Chip | 700 | dol-Carb | f.g., p-w, patches of gr, suc, abnt fine flecks, fl (diss, distribution defines crude bnds, 25%), py (1%, f.g.), cbnt (scattered xtls) | 12 m wide, frags dividing dol-Carb in ~2 x 1 m blocks | 8-Aug-11 |
| 92354 | 2011 | 92354 | Triple-D | 535757 | 6313372 | Boulder | Grab | 4850 | dol-Carb | f.g., lt gy-gr, suc, mottled, fl (abnt, p, diss, streaks, frac fill, ~15-20%), py (patchy) | ang boulder is 1 x 0.6 x 0.25 m | 8-Aug-11 |
| 92355 | 2011 | 92355 | Triple-D | 535811 | 6313391 | Boulder | Grab-Chip | 3100 | dol-Carb? | f.g., lt gy-gr, suc, bnds (pale p & y-br), fl (bnds, flecks, irregular frac fill), py (minor, f.g.), similar to 92354 | several small monolithic (1 type) boulders in 1 x 1 m area | 8-Aug-11 |
| 92356 | 2011 | 92356 | Triple-D | 535847 | 6313407 | Boulder | Grab-Chip | 1000 | dol-Carb? | f.g., lt ol-gy, mottled to poorly bnded, fl (abnt, ~20%, early frac fill, wk diss, flecks), py (minor, f.g.) | broken boulder is ~1.5 x 0.5 x 0.5 m | 8-Aug-11 |
| 92357 | 2011 | 92357 | Miranna | 536240 | 6313539 | Boulder | Grab | 500 | dol-Carb | f.g., w-br to lt gy, mass, extremely leucocratic, xtnl, fl? (tr, f.g.), py?, w-br patches | ang, mostly unmineralized boulder field is 5 x 5 m | 8-Aug-11 |
| 92358 | 2011 | 92358 | Triple-D | 535990 | 6313465 | Boulder | Grab-Chip | 2350 | dol-Carb | c.g., lt gy-tan, mottled, locally abnt xenocrysts of carb, mins (abnt, equant, dk), phl (patches, f.g.) | sub ang boulder is 2 x 1.7 x 1.2 m | 8-Aug-11 |
| 92359 | 2011 | 92359 | Triple-D | 535867 | 6313510 | Boulder | Grab | 1350 | dol-Carb? | f.g., lt gy, suc, small dol-Carb xenoliths, fl (patches, br-p, diss, frac fill), py (minor) | sub rnd boulder is 30 x 30 x 10 cm | 8-Aug-11 |
| 92360 | 2011 | 92360 | Triple-D | 535839 | 6313512 | Boulder | Grab | 2900 | dol-Carb | f.g., lt p to lt br to lt gr, mottled, fl (bnds, diss, broken clsts, frac fillings), py (minor) | sub rnd boulder is 0.3 x 1 x 1 m, similar to 92360, but more fl | 8-Aug-11 |
| 92361 | 2011 | 92361 | Triple-D | 535828 | 6313516 | Boulder | Grab | 4000 | dol-Carb | lt gr-br, wk bnd, as 92360, fl more fragmented, defines bndg | - | 8-Aug-11 |
| 92362 | 2011 | 92362 | Triple-D | 535813 | 6313554 | Boulder | Grab-Chip | 3850 | dol-Carb? | f.g., med gy-br, xtnl, fl (abnt, dk, f.g., diss), dol (lrg scattered xtls, suh), fl (minor, bnds, streaky, up to 1 cm), py | sub ang boulder | 8-Aug-11 |
| 92363 | 2011 | BP OC 08/05/11 | Beckling | 539147 | 6312887 | Outcrop? | Grab | 13000 | dol-Carb? | f.g., dk br-blk, withd - blk-p to rusty r, v. mass, competent, sul (diss), thorite or thorianite, metabasalt? | possibly a boulder, well vegetated, CPS range 19000-7000 CPS | 5-Aug-11 |
| 92364 | 2011 | BP OC 08/05/11 | Beckling | 539147 | 6312887 | Outcrop? | Grab | 13000 | - | f.g., dk met gy, p, withd - og-br, wk fol, comp bndg, bio (glittery, f.g.), fl (lenses, minor dol), qtz mtx (ltsl, hard!) | same OC? as 92363, CPS range from 19000-7000 CPS | 5-Aug-11 |
| 92365 | 2011 | 92365 | Triple-D | 535810 | 6313620 | Boulder | Grab-Chip | 3450 | dol-Carb | f.g., lt ol to med gy, suc, psd-brc, leucocratic clsts, dk mtx (diss), ukn min (dk, diss, bio?), fl (p, flecks), py (tr) | sub ang boulder is 60 x 40 x 30 cm | 9-Aug-11 |
| 92366 | 2011 | 92366 | Triple-D | 535939 | 6313669 | Boulder | Chip | 1430 | dol-Carb | lt gr-gy with p streaks, mass, wk bnds where fl (wk diss, frac fill), bio (frac fill), gr areas devoid of accessory mins, py (tr) | sub rnd boulder is 50 x 50 x 30 cm, found in sandy till, likely well travelled | 9-Aug-11 |
| 92367 | 2011 | 92367 | Triple-D | 535999 | 6313680 | Boulder | Grab | 2550 | cc-Carb | c.g., pk to v. lt gy, withd - r-br, fl (frac fill), RE-Flc? (frac fill, r), clb (euh, diss) | sub rnd boulder is 30 x 30 x ?cm, from NW zone? | 9-Aug-11 |

CERTIFICATE OF ANALYSIS

2 Pulp samples and 102 Rock samples were submitted for analysis.

The following analytical packages were requested:

| | | |
|---------------|-----------------|--|
| REPORT | A10-5392 | Code 1A2 Au - Fire Assay AA Code 8-REE-Rare Earth Element Pkg Major Elements Fusion ICP(WRA)/Trace Elements Fusion ICP/MS(WRA4B2) Code 8-XRF Assay Package Fusion-XRF |
|---------------|-----------------|--|

This report may be reproduced without our consent. If only selected portions of the report are reproduced, permission must be obtained. If no instructions were given at time of sample submittal regarding excess material, it will be discarded within 90 days of this report. Our liability is limited solely to the analytical cost of these analyses. Test results are representative only of material submitted for analysis.

Notes:

Total includes all elements in % oxide to the left of total.
Values which exceed the upper limit should be assayed for accurate numbers.
If value exceeds upper limit we recommend reassay by fire assay gravimetric-Code 1A3

CERTIFIED BY :

A handwritten signature in black ink, appearing to be "Emmanuel Esemé", written over a horizontal line.

CERTIFICATE OF ANALYSIS

6 Rock samples were submitted for analysis.

The following analytical packages were requested:

| | | |
|---------------|-----------------|--|
| REPORT | A10-5393 | Code 1A2 Au - Fire Assay AA Code 8-REE-Rare Earth Element Pkg Major Elements Fusion ICP(WRA)/Trace Elements Fusion ICP/MS(WRA4B2) Code 8-XRF Assay Package Fusion-XRF |
|---------------|-----------------|--|

This report may be reproduced without our consent. If only selected portions of the report are reproduced, permission must be obtained. If no instructions were given at time of sample submittal regarding excess material, it will be discarded within 90 days of this report. Our liability is limited solely to the analytical cost of these analyses. Test results are representative only of material submitted for analysis.

Notes:

Total includes all elements in % oxide to the left of total.
Values which exceed the upper limit should be assayed for accurate numbers.
If value exceeds upper limit we recommend reassay by fire assay gravimetric-Code 1A3

CERTIFIED BY :

A handwritten signature in black ink, appearing to be "Emmanuel Esemé", written over a horizontal line.

CERTIFICATE OF ANALYSIS

54 Rock samples were submitted for analysis.

The following analytical packages were requested:

REPORT A11-7313

Code 1A2 Au - Fire Assay AA
Code 4F-F Fusion Specific Ion Electrode-ISE
Code 8-REE Assay Package Major Elements Fusion
ICP(WRA)/Trace Elements Fusion ICP/MS(WRA4B2)
Code 8-XRF Assay Package Fusion-XRF
Code Weight Report Received and Pulp Weights

This report may be reproduced without our consent. If only selected portions of the report are reproduced, permission must be obtained. If no instructions were given at time of sample submittal regarding excess material, it will be discarded within 90 days of this report. Our liability is limited solely to the analytical cost of these analyses. Test results are representative only of material submitted for analysis.

Notes:

If value exceeds upper limit we recommend reassay by fire assay gravimetric-Code 1A3
Total includes all elements in % oxide to the left of total.
Values which exceed the upper limit should be assayed for accurate numbers.

CERTIFIED BY :

A handwritten signature in blue ink, appearing to read "Elitsa Hrischeva". The signature is fluid and cursive, written over a horizontal line.

Elitsa Hrischeva, Ph.D.

CERTIFICATE OF ANALYSIS

23 Rock samples were submitted for analysis.

The following analytical packages were requested:

REPORT **A11-7906 (i)**

Code 1A2 Au - Fire Assay AA
Code 4F-F Fusion Specific Ion Electrode-ISE
Code 8-REE Assay Package Major Elements Fusion
ICP(WRA)/Trace Elements Fusion ICP/MS(WRA4B2)
Code 8-XRF Assay Package Fusion-XRF

This report may be reproduced without our consent. If only selected portions of the report are reproduced, permission must be obtained. If no instructions were given at time of sample submittal regarding excess material, it will be discarded within 90 days of this report. Our liability is limited solely to the analytical cost of these analyses. Test results are representative only of material submitted for analysis.

Notes:

If value exceeds upper limit we recommend reassay by fire assay gravimetric-Code 1A3
Total includes all elements in % oxide to the left of total.
Values which exceed the upper limit should be assayed for accurate numbers.

CERTIFIED BY :

A handwritten signature in blue ink, appearing to read "Elitsa Hrischeva".

CERTIFICATE OF ANALYSIS

23 Rock samples were submitted for analysis.

The following analytical packages were requested:

REPORT **A11-7906-XRF**

Code 1A2 Au - Fire Assay AA
Code 4F-F Fusion Specific Ion Electrode-ISE
Code 8-REE Assay Package Major Elements Fusion
ICP(WRA)/Trace Elements Fusion ICP/MS(WRA4B2)
Code 8-XRF Assay Package Fusion-XRF

This report may be reproduced without our consent. If only selected portions of the report are reproduced, permission must be obtained. If no instructions were given at time of sample submittal regarding excess material, it will be discarded within 90 days of this report. Our liability is limited solely to the analytical cost of these analyses. Test results are representative only of material submitted for analysis.

Notes:

If value exceeds upper limit we recommend reassay by fire assay gravimetric-Code 1A3
Total includes all elements in % oxide to the left of total.
Values which exceed the upper limit should be assayed for accurate numbers.

CERTIFIED BY :

A handwritten signature in black ink, appearing to be "Emmanuel Esemé". The signature is written in a cursive, somewhat stylized font.

CERTIFICATE OF ANALYSIS

81 Rock samples were submitted for analysis.

The following analytical packages were requested:

REPORT A11-9933

Code 1A2 Au - Fire Assay AA
Code 4F-F Fusion Specific Ion Electrode-ISE
Code 8-REE Assay Package Major Elements Fusion
ICP(WRA)/Trace Elements Fusion ICP/MS(WRA4B2)
Code 8-XRF Assay Package Fusion-XRF

This report may be reproduced without our consent. If only selected portions of the report are reproduced, permission must be obtained. If no instructions were given at time of sample submittal regarding excess material, it will be discarded within 90 days of this report. Our liability is limited solely to the analytical cost of these analyses. Test results are representative only of material submitted for analysis.

Notes:

If value exceeds upper limit we recommend reassay by fire assay gravimetric-Code 1A3
Total includes all elements in % oxide to the left of total.
Values which exceed the upper limit should be assayed for accurate numbers.

Footnote: P2O5 interference on Zr/Hf/Ta

CERTIFIED BY :

A handwritten signature in black ink, appearing to be "Emmanuel Esemé", written over a horizontal line.

CERTIFICATE OF ANALYSIS

57 Rock samples were submitted for analysis.

The following analytical packages were requested:

REPORT **A11-10589 (i)**

Code 1A2 Au - Fire Assay AA
Code 4F-F Fusion Specific Ion Electrode-ISE
Code 8-REE Assay Package Major Elements Fusion
ICP(WRA)/Trace Elements Fusion ICP/MS(WRA4B2)
Code 8-XRF Assay Package Fusion-XRF
Code Weight Report Received and Pulp Weights

This report may be reproduced without our consent. If only selected portions of the report are reproduced, permission must be obtained. If no instructions were given at time of sample submittal regarding excess material, it will be discarded within 90 days of this report. Our liability is limited solely to the analytical cost of these analyses. Test results are representative only of material submitted for analysis.

Notes:

If value exceeds upper limit we recommend reassay by fire assay gravimetric-Code 1A3
Total includes all elements in % oxide to the left of total.
Values which exceed the upper limit should be assayed for accurate numbers.

CERTIFIED BY :

A handwritten signature in black ink, appearing to read "Emmanuel Esemé". The signature is stylized and somewhat illegible due to the cursive nature of the writing.

Emmanuel Esemé , Ph.D.

CERTIFICATE OF ANALYSIS

34 Rock samples were submitted for analysis.

The following analytical packages were requested:

REPORT A11-11711-8REE-4F

Code 1A2 Au - Fire Assay AA
Code 4F-F Fusion Specific Ion Electrode-ISE
Code 8-REE Assay Package Major Elements Fusion
ICP(WRA)/Trace Elements Fusion ICP/MS(WRA4B2)
Code 8-XRF Assay Package Fusion-XRF
Code Weight Report Received and Pulp Weights

This report may be reproduced without our consent. If only selected portions of the report are reproduced, permission must be obtained. If no instructions were given at time of sample submittal regarding excess material, it will be discarded within 90 days of this report. Our liability is limited solely to the analytical cost of these analyses. Test results are representative only of material submitted for analysis.

Notes:

If value exceeds upper limit we recommend reassay by fire assay gravimetric-Code 1A3
Total includes all elements in % oxide to the left of total.
Values which exceed the upper limit should be assayed for accurate numbers.

CERTIFIED BY :

A handwritten signature in black ink, appearing to be "Emmanuel Esemé". The signature is stylized and somewhat cursive, written over a horizontal line.

Emmanuel Esemé , Ph.D.

CERTIFICATE OF ANALYSIS

34 Rock samples were submitted for analysis.

The following analytical packages were requested:

REPORT **A11-11711-XRF**

Code 1A2 Au - Fire Assay AA
Code 4F-F Fusion Specific Ion Electrode-ISE
Code 8-REE Assay Package Major Elements Fusion
ICP(WRA)/Trace Elements Fusion ICP/MS(WRA4B2)
Code 8-XRF Assay Package Fusion-XRF
Code Weight Report Received and Pulp Weights

This report may be reproduced without our consent. If only selected portions of the report are reproduced, permission must be obtained. If no instructions were given at time of sample submittal regarding excess material, it will be discarded within 90 days of this report. Our liability is limited solely to the analytical cost of these analyses. Test results are representative only of material submitted for analysis.

Notes:

If value exceeds upper limit we recommend reassay by fire assay gravimetric-Code 1A3
Total includes all elements in % oxide to the left of total.
Values which exceed the upper limit should be assayed for accurate numbers.

CERTIFIED BY :

A handwritten signature in black ink, appearing to read "Emmanuel Esemé". The signature is stylized and somewhat cursive.

Emmanuel Esemé , Ph.D.

ATTN: Darren Smith

CERTIFICATE OF ANALYSIS

680 Soil samples were submitted for analysis.

The following analytical package was requested: Code UT-6-Dahrouge Total Digestion ICP & ICP/MS

REPORT **A10-5388**

This report may be reproduced without our consent. If only selected portions of the report are reproduced, permission must be obtained. If no instructions were given at time of sample submittal regarding excess material, it will be discarded within 90 days of this report. Our liability is limited solely to the analytical cost of these analyses. Test results are representative only of material submitted for analysis.

CERTIFICATE OF ANALYSIS

28 Soil samples were submitted for analysis.

The following analytical package was requested: Code UT-6-Dahrouge Total Digestion ICP & ICP/MS

REPORT **A10-5395**

This report may be reproduced without our consent. If only selected portions of the report are reproduced, permission must be obtained. If no instructions were given at time of sample submittal regarding excess material, it will be discarded within 90 days of this report. Our liability is limited solely to the analytical cost of these analyses. Test results are representative only of material submitted for analysis.

Notes:

CERTIFIED BY :

A handwritten signature in black ink, appearing to be "Emmanuel Esemé". The signature is written in a cursive style with some loops and is positioned above a horizontal line.

Emmanuel Esemé , Ph.D.

CERTIFICATE OF ANALYSIS

123 Soil samples were submitted for analysis.

The following analytical package was requested: Code UT-6-Dahrouge Total Digestion ICP & ICP/MS

REPORT **A10-7532**

This report may be reproduced without our consent. If only selected portions of the report are reproduced, permission must be obtained. If no instructions were given at time of sample submittal regarding excess material, it will be discarded within 90 days of this report. Our liability is limited solely to the analytical cost of these analyses. Test results are representative only of material submitted for analysis.

ATTN: Darren Smith

CERTIFICATE OF ANALYSIS

314 Soil samples were submitted for analysis.

The following analytical packages were requested: Code 1A2 Au - Fire Assay AA
Code UT-6+Au Total Digestion ICP & ICP/MS

REPORT **A11-7308**

This report may be reproduced without our consent. If only selected portions of the report are reproduced, permission must be obtained. If no instructions were given at time of sample submittal regarding excess material, it will be discarded within 90 days of this report. Our liability is limited solely to the analytical cost of these analyses. Test results are representative only of material submitted for analysis.

Notes:

If value exceeds upper limit we recommend reassay by fire assay gravimetric-Code 1A3

CERTIFIED BY :

A handwritten signature in black ink, appearing to be "Emmanuel Esemé". The signature is written in a cursive style with some loops and is positioned above a horizontal line.

Emmanuel Esemé , Ph.D.
