

TABLE - Industrial stone quarries in operation in Québec in 2016

Site	Deposit	Company	Brief description	Products	Canton/SNRC	Administrative region
Limestone, dolomite and marble						
1	Bedford	Graymont (Qc) (Bedford division)	Limestone from the Corey Formation	Quicklime, crushed limestone products for	Stanbridge / 31H03	16
2	Domlim no. 2 and no. 6	Graymont (Qc) (Marbleton division)	Limestone from the Lac Aylmer Formation	Quicklime, crushed limestone products for	Dudswell / 21E12	05
3	Jolichaux	Graymont (Qc) (Joliette division)	Limestone from the Deschambault Formation	Quicklime, crushed limestone products for industrial use,	Lavaltrie / 31I03	14
4	Calco	Graymont (Portneuf)	Limestone from the Deschambault	Crushed stone, crushed limestone	Seigneurie de Grondines /31I09	03
5	Saint-Armand Principale	Omya Canada (St-Armand division)	Limestone from the Strites Pond Formation	Ground limestone for mineral filler,	Seigneurie de Saint- Armand / 31H03	16
6	Saint-Armand Principale	Omya Canada (St-Armand division)	Dolomite from the Strites Pond Formation	Magnesium amendment	Seigneurie de Saint- Armand / 31H03	16
7	La Rédemption	Coopérative des Producteurs de chaux du Bas-Saint-Laurent	Dolomitic limestone from the Sayabec Formation	Magnesium amendment	Awantjish / 22B05	01
8	Pères Trappistes	Les Calcites du Nord	Calcitic marble	White granules for artificial stone, masonry	Pelletier / 32A16	02
9	Ciment indépendant	Ciment St-Laurent (independant)	Limestone from the Trenton and Black River	Cement production	Lanoraye / 31I03	14
10	Saint-Basile-sud	Ciment Québec	Limestone from the Trenton and Black River	Cement production	Auteuil / 21L12	03
11	Ciment Lafarge	Lafarge Canada	Limestone from the Trenton and Black River	Cement production	Sault-Saint-Louis / 31H05	16
12	Soca	Waterloo Aggregates	Dolomitic marble from the Stukely-south fault zone	High magnesium content amendment, terrazzo	Stukely / 31H08	05
13	Saint-Ferdinand	Les Carrières St-Ferdinand	Dolomite from the Oak Hill Group	High magnesium content amendment,	Halifax / 21L04	17
14	Trottier Mills	Les Carrières St-Ferdinand	Dolomite from the Oak Hill	High magnesium content	Chester / 21L04	17
Clay minerals						
15	Briqueterie Saint-Laurent	Hanson Bricks	Shale from the Nicolet	Face bricks	La Prairie / 31H06	16
Silica						
16	Sainte-Clotilde	Les Sables Silco	Clay from the Potsdam Group	Silica-rich crushed stone	Beauharnois-1 /31H04	16

17	Saint-Joseph- du- Lac	La Compagnie Bon Sable	Natural sand	Washed sand for masonry and sanding	Lac-des-Deux- Montagnes-1 / 31H12	15
18	Chromasco	Carrières Sud- Ouest	Clay from the Potsdam Group	Silica-rich crushed stone and aggregate	Beauharnois / 31H05	16
19	Lac Beauchêne	Les Pierres du Nord	Muscovite quartzite from the Kipawa	Quartz granules for artificial stone production	Campeau / 31L10	08
20	Lac Daviault	Polycor	Quartzite from the Wishart Formation,	Quartz granules for artificial stone production	Lislois / 23B14	09
