

**TABLE - Industrial stone quarries in operation in Québec in 2018**

Site	Deposit	Company	Brief description	Products	Canton/SNRC	Administrative region
<b>Limestone, dolomite and marble</b>						
1	Bedford	Graymont (Qc) (Bedford division)	Limestone from the Corey Formation	Quicklime, crushed limestone products for industrial use, crushed stone	Stanbridge / 31H03	16
2	Domlim no. 2 and no. 6	Graymont (Qc) (Marbleton division)	Limestone from the Lac Aylmer Formation	Quicklime, crushed limestone products for industrial use, crushed stone	Dudswell / 21E12	05
3	Jolichaux	Graymont (Qc) (Joliette division)	Limestone from the Deschambault Formation	Quicklime, crushed limestone products for industrial use, crushed stone	Lavaltrie / 31I03	14
4	Calco	Graymont (Portneuf)	Limestone from the Deschambault Formation	Crushed stone, crushed limestone products for industrial use	Seigneurie de Grondines /31I09	03
5	Saint-Armand Principale	Omya Canada (St-Armand division)	Limestone from the Strites Pond Formation	Ground limestone for mineral filler, white granules for terrazzo	Seigneurie de Saint-Armand / 31H03	16
6	Saint-Armand Principale	Omya Canada (St-Armand division)	Dolomite from the Strites Pond Formation	Magnesium amendment	Seigneurie de Saint-Armand / 31H03	16
7	La Rédemption	Coopérative des Producteurs de chaux du Bas-Saint-Laurent	Dolomitic limestone from the Sayabec Formation	Magnesium amendment	Awantjish / 22B05	01
8	Pères Trappistes	Les Calcites du Nord	Calcitic marble	White granules for artificial stone, masonry sand, amendment	Pelletier / 32A16	02
9	Ciment indépendant	Ciment St-Laurent (independant)	Limestone from the Trenton and Black River groups	Cement production	Lanoraye / 31I03	14
10	Saint-Basile-sud	Ciment Québec	Limestone from the Trenton and Black River groups	Cement production	Auteuil / 21L12	03
11	Ciment Lafarge	Lafarge Canada	Limestone from the Trenton and Black River groups	Cement production	Sault-Saint-Louis / 31H05	16
12	Soca	Waterloo Aggregates	Dolomitic marble from the Stukely- south fault zone	High magnesium content amendment, terrazzo granules, decorative aggregate	Stukely / 31H08	05
13	Saint-Ferdinand	Les Carrières St-Ferdinand	Dolomite from the Oak Hill Group	High magnesium content amendment, decorative aggregate	Halifax / 21L04	17
14	Trottier Mills	Les Carrières St-Ferdinand	Dolomite from the Oak Hill Group	High magnesium content amendment	Chester / 21L04	17
<b>Clay minerals</b>						
15	Briqueterie Saint-Laurent	Hanson Bricks	Shale from the Nicolet Formation	Face bricks	La Prairie / 31H06	16
<b>Silica</b>						
16	Sainte-Clotilde	Les Sables Silco	Clay from the Potsdam Group	Silica-rich crushed stone for cement plants	Beauharnois-1 /31H04	16
17	Saint-Joseph- du-Lac	La Compagnie Bon Sable	Natural sand	Washed sand for masonry and sanding	Lac-des-Deux-Montagnes-1 / 31H12	15
18	Chromasco	Carrières Sud-Ouest	Clay from the Potsdam Group	Silica-rich crushed stone and aggregate for cement plants	Beauharnois / 31H05	16
19	Lac Beauchêne	Les Pierres du Nord	Muscovite quartzite from the Kipawa Formation	Quartz granules for artificial stone production	Campeau / 31L10	08
20	Lac Daviault	Polycor	Quartzite from the Wishart Formation, Gagnon Group	Quartz granules for artificial stone production	Lislois / 23B14	09
